No. F.1/3444/41

Station Bellary., *Dated the* 21st July 1941.

From (Name) Sri.K.Venkatadri Chowdary, B.A.,

(Designation) Commissioner, Bellary Municipality, Bellary.

To The Secretary to the Government of Madras,

PUBLIC WORKS & LABOUR Department.
MADRAS.

Through Janab D.Abdul Rawoof Saheb Bahadur, B.A., B.L., M.L.A., Chairman, Municipal Council, Bellary.

Sir,

The Electric Standing Committee, ~~kwm~~ to whom powers have been delegated by the Council, at its meeting held --- on 20-6-1941 considered that the rates for purposes other -- than lighting and fans in force in Para 4, Part II of the -- Booklet of Conditions and Rates of the Bellary Municipal --- Electrical Scheme are much higher than those in force in --- other licence areas for energy used for heating and power -- purposes with the result that the Bellary Municipal ----- Electrical Undertaking has not been able to show the same -- progress which the other sister Municipal Undertakings have made. On account of these high rates persons using prime movers other than electricity are competing keenly with

users of electric motors and the latter are gradually losing much of their business. There is also very little ---- incentive for new consumers to instal electric motors. In order to improve the conditions, data covering a -- period of 24 months was collected for the power consumers and a suitable rate was worked out to give relief --- to the users of electricity for heating and power purposes and at the same time to prevent a large fall in the -- Revenue of the Municipal Council due to reduced rates. Local conditions and the fact that the Municipal Council has to generate energy by using oil engines were taken into consideration and no drastic reduction is proposed.

2. Revenue from 30 Industrial consumers for a period of 24 months comes to Rs.24,302/- according to the --- existing rates, and according to the proposed rates, the revenue from the same consumers for the same period -- would be Rs.20,739/- or Rs.3,563/- less. This works out Rs.1,782/- or Rs.148/- say a reduction of Rs.150/- per month. Experience everywhere indicates that a - reduction in tariff generally leads to larger consumption by existing consumers and addition of new consumers. - The small reduction of Rs.150/- per month can therefore be easily made up by increase in consumption by the -- existing consumers and by the addition of new consumers.

3. It is proposed to retain the surcharge for energy used during the evening peak on account of the peculiar local conditions. In most places, generally the power consumers do not run their machines after night-fall but in Bellary twice a week on Shandy days i.e., on Tuesdays and Fridays, all the flour mills have their machines - run to full capacity during the evening peak period. On this account it is necessary to keep surplus plant --- ready to meet this extra load twice or thrice during - a week. Further, if the Municipal Council has to --- purhcase energy in Bulk from a Government Generating Station

at a future date, the Council will have to pay its energy charges on the maximum demand due to the normal lighting -- load and also due to the periodical load of these industrial consumers. As the higher maximum demand is created by --- these power consumers it is but just that they should pay -- a little higher charges for keeping additional plant ready in the Power Station for meeting their periodical demand during the evening peak. The present rates are As.4/- per unit --- for energy used during the evening peak period. It is --- proposed to reduce this rate but not to abolish it altogether on account of the peculiar local conditions pointed out above.

4 At present no minimum charges either monthly or annual one fixed for load connected for Industrial purposes. This is having an adverse effect on the Undertaking. Consumers are purchasing second hand motors of sizes much too large for their needs and installing them. There are instances where there is hardly work for a 10 H.P. motor but a 30 H.P. motor has been installed and the monthly consumption averages about 150 units. The Municipal Council has however to --- strenthen its mains, service line, meter etc., to meet a --- load of 30 H.P. The return on the investment is in some -- cases negligible. The state of affairs will become much -- worse when the system is converted from D.C. to A.C. A big -- motor working on a small load works at a very low power factor resulting in reduction of capacity of Generating Station, --- Sub-station, mains, unless suitable corrective measures are -- adopted. In order to discourage this practice it is proposed -- to have a minimum charge of Rs.15/- per annum per Horse-Power -- connected.

5 Para 4, Part II of the booklet of conditions is now as follows:-

For the first 800 units.	...	2.00 annas	per unit.
,, next 1200 ,,	...	1.75 ,,	,,
,, 2000 ,,		1.60 ,,	,,
,, 3000 ,,	....	1.25 ,,	,,
Rest.	...	1.00 ,,	,,

Sub-para under Part 4 of Part II. b1(d)

The above rates shall not apply to energy used between the hours of sunset and 8 P.M. Energy used between these hours will be charged at 4 annas per unit and measured by a double tariff meter.

The proposed rates under the same para are as follows:--

For the first 200 units.	...	2.00 annas	per unit.
,, next 800 ,,	...	1.50 ,,	,,
,, next 2000 ,,	...	1.25 ,,	,,
,, rest ...	...	1.00 ,,	,,

A

No monthly minimum but an annual minimum of Rs.15/- per H.P. connected will be charged.

Sub-para under Para 4 of Part II will read as follows:--

During restricted hours i.e., between 6 P.M. and 9 P.M. a surcharge of 25% over the maximum rate per unit in force will be charged.

5/ The Electric Standing Committee also consider -- that the rates in force for Reconnections as per Clause 9 (a) and (b) Part III of the Booklet of Conditions are on the --- high side and discourage many disconnected services to come --- into use again. It is felt that the rates for reconnection should be just sufficient to meet the incidental expenses --- necessary for reconnecting the service and that there should -- be no profit over this. The moment an installation is connected to the system, it commences to yield a return to -- the licencee. It does not profit the Electrical Undertaking -- to frighten away a potential customer by a high reconnection charge.

b/ The Electric Standing Committee therefore propose the -- following charges under Clause 9 (a) and (b) Part III of the --

Booklet of Conditions and Rates.

Purpose.	Existing rate.	Proposed Rate.
Reconnection at Cut-outs. ...	Rs.4/-	Rs.2/-
Reconnection at -- aerial fuse. ...	Rs.7/-	,,3/-
Reconnection at -- Underground Cable Box.	Rs.35/-	,,25/-

I request the Government will be pleased to -- approve the proposals of the Committee as the proposed --- rates are expected to increase the revenues of the ---- Electrical Undertaking. A copy of the Resolution No.21 dated 20-6-41 is enclosed.

Commissioner.

Copy of Resolution No.21 dated 20-6-41 of the -- Electric Standing Committee.

Read:-

Electrical Engineer's note dated 5-6-1941 proposing reduction in Rates under Para 4, of Part II of the Booklet of Conditions and reconnection charges -- as follows:--

(1)	First 200 units.	... At As.2/- per unit.
(2)	Next 800 ,,	,, 1.5/- ,,
(3)	Next 2000 ,,	,, 1.25/- ,,
(4)	Rest.	,, 1.00/- ,,

No monthly minimum but an annual minimum of -- Rs.15/- per H.P. connected will be charged.

During restricted hours i.e.,between 6 P.M. and 9 P.M. a surcharge of 25% over the maximum rate per unit -- in force will be charged. Proposed rates during restricted hours will be As.2/- plus 25% or As.2/6 per unit.

Reconnection fee.

(1)	Reconnection at Cut-outs...	Rs.2/- per connection.
(2)	Reconnection at the aerial fuse. ...	,,3/- ,, ,,
(3)	Reconnection at Underground cable. ...	,,25/- ,, ,,

Resolution:- Approved.

Chief Electrical Inspector to Govt.,
Chepauk, Madras.

Endorsement No.M-23-b/1227 dated 31st July 1941.

Sub: Electricity - Bellary Electric Licence - Rates for industrial purposes.

Ref: P.W.D.Endorsement No.3029-G/41-1 dated 28-7-41.

With reference to the above Government Endorsement, I have to state that the reductions proposed are to the benefit of the consumers and may be approved. The Commissioner points out that the reduction in revenue would be less than Rs.150/- per mensem and as such the proposals are not likely to affect the finance of the undertaking to any great extent.

2. As regards the proposal to impose a minimum of Rs.15/- per H.P. connected per annum, the same is not as per the latest practice. The licencee may be directed to alter the minimum clause in line with the following:--

> "No monthly minimum charge, but if the annual consumption falls below 300 units per horse-power connected and utilised, all the consumption will be charged at 2 annas per unit."

3. The proposal to surcharge 25 % during peak load hours is as per the latest practice and may be approved The change in peak load hours from "sunset and 8 P.M." to "6 P.M. and 9 P.M." may also be approved.

4. Reconnection charges.

The standard rates approved in G.O.No.514 dated 14-3-38 and amended in P.W.D. Memorandum No.1586 E/41-3 dated 28-6-41 may be recommended for adoption.

Station Bellary., *Dated the* 31st March 1942.

From (Name) Sri. A.Raghava Reddi, B.A.,
(Designation) Commissioner, Bellary Municipality,
Bellary.

To The Secretary to the Government of Madras,

Through PUBLIC WORKS AND LABOUR Department.
Janab D.Abdul Rawoof Saheb Bahadur, B.A., B.L., M.L.A., F.A.U.,
Chair man, Municipal Council.

Sir,

Ref:-- Government Memorandum No.3029-G-41-6 dated 18-11-41.

The Electric Standing Committee, to whom powers have been delegated by the Council, resolved to request the -- Government in its resolution No.21 dated 20-6-41 to approve the reduction of rates for industrial purposes and for -- reconnections. The Government in their Memo. No. 3029G41-3 dated 25-8-41 recommended certain amendments regarding the rates for reconnections. The Electric Standing Committee, while agreeing to all the recommendations of the Government, requested the Government to reduce the surcharge of

P-T-O

50% suggested in clause (c) to 25% as it considered that a surcharge of 50% was excessive. The Government in their Memo. No. 3029-G-41-6 dated 18-11-41 stated that a 50% surcharge was recommended to dissuade consumers from getting their installations disconnected too frequently. The Electric Standing Committee in its resolution No. 1 dated 15-3-42 agreed to accept the surcharge of 50%. Thus the Electric Standing Committee accepts completely all the amendments recommended in Government Memo. No. 3029-G-41-3 dated-- 25-8-41. Orders may kindly be passed confirming the -- amendments suggested by the Government.

2. Further on account of the difficulty experienced at present in obtaining regular supplies of crude oil, the Electric Standing Committee resolved to postpone the reduction of rates for industrial purposes proposed in its resolution No. 21 dated 20-6-41.. No orders need therefore be passed in this behalf.

ENCLOSURES One.

SPARE COPIES

The Electric Standing Committee, to whom powers have been delegated by the Council, resolved to request the Government in its resolution No.21 dated 20-6-41 to approve the reduction of rates for industrial purposes and for reconnections. The Government in their Memo. No.3029 G-41-3 dated 25-8-41 recommended certain amendments regarding the rates for reconnections. The Electric Standing Committee while agreeing to all the recommendations ~~fat~~ of the Government, requested the Government to reduce the surcharge of 50 % suggested in clause (c) to 25 %, as it considered that a surcharge of 50 % was excessive. The Government in their memo. 3029 G 41-6 dated 18-11-41 stated that a 50 % was recommended to dissuade consumers from getting their installations disconnected too frequently. The Electric Standing Committee in its resolution No.1 dated 15-3-42 agreed to accept the surcharge of 50 %. Thus the Electric Standing Committee accepts completely all the amendments recommended in Government memo. No.3029 G-41-3 dated 25-8-41. Orders may kindly be passed confirming the amendments suggested by the Government. Further on account of the difficulty experienced at present in obtaining regular supplies of crude oil, the Electric Standing Committee resolved to postpone the reduction of rates for indust-

industrial purposes proposed in its resolution No.21 dated 2[illegible]6-41.

No orders need therefore be passed in this behalf.

Copy of resolution is submitted herewith.

C no. 3029G/41 dt 28-7-41 From the Comm., Bellary municipality no. F.1/344/41 dt 21-7-41

To the Ch. E. & G. Endt. no. 3071G/41-1 dt 28-7-41

From 7123 b/1227 dt 31-7-41

C.E. (Elecy.) - 3013G/41-1 dt 12-8-41

To AS

The Bellary mul-cl. proposes to reduce the industrial tariff and the reconnection charges of disconnected services and for the purpose proposes to amend clause 4 of Part II and clause 9 of Part III of the booklet as at A on p 4 and B on p 5 respectively of c/f.

2. The Ch. E. & G. agrees to the reduction of rates, but does not agree to the proposal to impose a minimum of Rs. 15/- per H.P. connected per annum and suggests the amendment of clause 4 of Part II ~~proposed~~ as in para 2 on p 12 c/f. But the C.E(E) considers the proposal of the mul-cl to be in order. ~~This~~ His views may be accepted.

3. As regards the amendment to Part III the Ch-E-I-A suggests that the rates for reconnection approved in G.O. no. 5-14 P.W.D dt 14-3-38 (viz clause 4 of Part III of App. I) as amended by Memo. no. 1586 E/41-3 dt 28-6-41 may be adopted instead of those proposed. The C-E (Elecy.) agrees with them. The rates suggested by the Ch-E-I-A. and C E.(E) are slightly higher than those proposed by the sub-d. It is observed that condition 15 of Part I of the Bellary booklet corresponds to condition 16 of Part I of App. I to G.O. no 5 14 P.W.D dt 14-3-38 ~~that~~ that the cases of reconnection coming under that condition also will be charged ~~under~~ clause 9 of Part III. Therefore, the words "not for cases coming under condition 16 of Part I" occurring at the end of clause 4(a) of Part III of App I to G.O. 5 14 P.W.D dt 14-3-38 as amended in Memo. no. 1586 E/41-3 dt 28-6-41 is unnecessary in the present case. The clause suggested by the Ch-E-I-A and C E.(Elecy.) with the words referred to above deleted from it may be put
